

## THE 24' ENTOURAGE

Unobtrusive on the outside, the clean lines of the moderately sized Entourage quietly conceals a custom designed interior that is unsurpassed in the industry. Natural bamboo, polished black granite counters, contrasting, high profile, porcelain sink basins, designer, no-touch faucets, handsomely framed artwork, track lighting and more, are combined to produce a comfortable, welcoming atmosphere and an eye-pleasing aesthetic. But the Entourage is not just a "pretty face". This unit is a fully functioning rest room facility that can handle a high volume of traffic without showing the strain. Climate controlled and wired for sound, the Entourage caters to the guest's comfort in every way possible. Introduced in the 2010 season, it has already garnered numerous rave reviews.

Specifications on overleaf.

# The 24' Entourage

Even with so many appointments to distinguish it from the other mobile facilities, the high profile porcelain sink basins seem to have become the defining feature of the Entourage. Their stark whiteness, circular shapes and high-rise design contrasted against the highly polished, black granite counters grab the viewer's eye upon entry and become the aesthetic centerpiece of the interior. Brushed nickel, curved, no-touch faucets provide metallic accents for the sinks and the clean, hard-edged design is offset by the soft, natural look of real bamboo doors and rich wood trim throughout. Large, framed, plate glass mirrors in the grooming areas allow guests to check their attire and adjust hair and hair make up. The Entourage is truly a unique rest room that delivers the highest levels of comfort, efficiency and design available anywhere in the field.
