THE 24 FT ESTATE

When we designed the 28 foot Estate, we thought that it would be used, primarily, at large and lavish events for big organizations. However, the specially created marble sinks, the large, exquisitely framed grooming mirrors, and other amenities proved so popular with the public, that the unit was soon being booked by private individuals. But, because those venues are usually smaller and the attendance less, it became obvious that a smaller Estate would be needed. So here it is. The new 24 foot Estate, with all the luxury of the 28 footer, but in a smaller package. The new Estate even has a few additional features not currently available on the bigger unit.

The interior of the ultra-luxurious Estate series was designed by and for Norsic. Hand-crafted marble sinks and shelving and the no-touch, satin finished faucets are available only in the Estates. But the 24' Estate goes a bit further than its larger predecessor in that the compartment doors no longer have vent gaps at the floor and ceiling. The new unit is also capable of operating independent of water sources at the venue, and this Estate is fully equipped to operate in cold weather down to zero degrees f. (f).

Accommodations	<p>Men's side: 2 commodes in private stalls, 2 urinals, 2 sinks with mirror in common area.</p> <p>Ladies side: 4 commodes in private stalls, 2 sinks with mirror in common area.</p>
